

# LEARN NOT TO BURN

A COMMITTEE HAS BEEN FORMED IN UNIVERSITY PARK TO ASSIST IN EDUCATING OUR COMMUNITY ABOUT FIRE MITIGATION.

## Vision

Homeowners of University Park work together to make a safer neighborhood through fire mitigation.

The committee will be scheduling risk assessment for homeowners with the CSFD Fire Mitigation Team.(FMT) We are implementing this process to make it easier for homeowners and the FMT. The homeowner must be present for the assessment. We will contact you when your area is scheduled. If this time block does not work for you you may set up a time with the FMT at 385-7342.

To get updates on this effort and all University Park alerts please make sure you have registered on [universityparkpoints.com](http://universityparkpoints.com). Click on [site subscription](#) on the left side and also the [directory](#) on the left side to register. We will provide updated information on the Wildfire Mitigation tab as it becomes available.

You may contact the University Park Wildfire Mitigation Committee with questions or comments at:  
[uparkwmc@gmail.com](mailto:uparkwmc@gmail.com)

When reviewing the attached information you will find that the assessment includes recommendations to make your property more defensible (NOT clear cutting) in the event of a fire.
